Sir

The Maharajah of Mysore Spinning & Manufacturing Company, Limited Loan.

Mr Scott states he saw you personally and asked your indulgence to give us time to pay up the amounts now due to the Government, which amounts with Interest to Rs 27,000/. We propose paying now Rs 13500/ to account, and will pay the balance when we dispose of Debentures of the new debenture Loan. The loss to the Company last year of Rs 18000/ odd, has crippled the Company considerably as it is very much in want of Working Capital. Mr Scott said you would likely agree to our request of paying you Rs 13,500/ at present, we would also propose if will suit your Government to take half cash yearly, and the other half in our new debenture Loan, if the Government will consent to this it will be of the greatest assistance to the Company in its present struggle for existance. We think Your position will be much

(C1)

improved when all our Looms are going and the present low rate of Cotton is enabling us to work at a profit. But interest at 9% to 12% which we paid all last year would almost ruin any Industry This is a time and a most critical one, if the Government see its way to assist this most important Industry to enable it to get over a very critical point when that point is reached, we see no reason why the Company should not be as prosperous as any in the Country, trusting to have your favorable reply.
